CAREER OBJECTIVE

Full-stack developer skilled in Python (Django), MySQL, and JavaScript, with hands-on experience shipping production systems — from third-party API integrations to cloud-deployed client applications. Currently deepening frontend expertise in React while building on a strong Django/MySQL backend foundation. Seeking an internship where I can own real features end-to-end.

WORK EXPERIENCE

Freelance Full-Stack Developer — Big Boss Awning & Canopies

May 2026

Independent Client Project | Virtual

- Built and deployed a full-stack commercial web app using Python (Django) and MySQL for a real local business.
- Engineered production asset delivery with WhiteNoise, resolving static file compression issues for live deployment.
- Managed full cloud infrastructure on Render — database migrations, environment variables, production configuration.
- Integrated XML sitemaps with Google Search Console, achieving 100% URL discovery and live search indexation.

EDUCATION

Bachelor of Computer Applications (BCA)

2024 – 2027

IMR Ghaziabad | Percentage: 69.08%

Senior Secondary (XII) — Science, UP Board

2024

S.G. Public Inter College, Deri Machha, GB Nagar | Percentage: 69.80%

Secondary (X), UP Board

2022

M D H S S, Saddique Nagar, Sihani, Ghaziabad | Percentage: 73.17%

TRAININGS / CERTIFICATIONS

Python Data Analytics

Jan 2026 – Apr 2026

Institute of Management and Research, Ghaziabad

- Mastered core Python, OOP concepts, and exception handling.
- Hands-on experience analyzing and processing datasets programmatically.
- Built interactive visual dashboards using Matplotlib and Plotly.

Full Stack Web Development

Jul 2025 – Jun 2026

FreeCodeCamp, Virtual

- Ongoing program covering HTML, CSS, JavaScript, and modern frontend frameworks.

PROJECTS

Hospital Management System

2026

Technical assessment project — Banao Technologies application process

github.com/hanji-abhay/banao-hms

- Built a full-stack Hospital Management System using Django and MySQL as a technical task project for an internship application process.
- Integrated serverless email notifications via Gmail SMTP and two-way appointment sync using the Google Calendar API.
- Diagnosed and resolved a PyMySQL compatibility issue and remediated an exposed-credentials vulnerability flagged by GitGuardian.
- Implemented concurrency-safe appointment booking using Django's `select_for_update()`, preventing double-booking under simultaneous requests.

InternTrack

2026

github.com/hanji-abhay/internship-application-tracker

- Internship application tracker to organize applications, statuses, and progress with local browser storage.

- Built entirely with vanilla HTML, CSS, and JavaScript — no framework dependencies.

Interactive UI Experiment

Feb 2026

hanji-abhay.github.io/you-cant-say-no/valentine.html

- Creative frontend experience built around dynamic user interaction and fluid animations.
- Used JavaScript DOM manipulation for real-time mouse tracking and element repositioning.

Text Analyzer

2025

github.com/hanji-abhay/TextAnalyzer

- Python CLI tool for word count, frequency analysis, and text insights.
- Built with clean OOP architecture and file handling for processing any text input.

Library Management System

2025

github.com/hanji-abhay/library-management-system-python-mysql

- Full-featured system for book records, member management, and issue/return tracking.
- MySQL backend with clean Python OOP structure.

Google Interface Clone

Nov 2025 – Jan 2026

hanji-abhay.github.io/google-clone/

- Pixel-perfect Google homepage clone focusing on UI detail and clean frontend fundamentals.

SKILLS

Frontend: HTML5 · CSS3 · JavaScript · Responsive Design · (currently learning React)

Backend: Python · Django · MySQL · REST APIs

Python: OOP · File Handling · Exception Handling · Matplotlib · Plotly

Tools: Git · GitHub · VS Code · Render · Google Search Console

EXTRACURRICULAR ACTIVITIES & INTERESTS

- Visual Arts & Painting — Created large-scale Radha Krishna and Lakshmi Narayan wall murals; passionate about blending artistic creativity with UI/UX design sensibility.
- Web Design — Constantly experimenting with new layouts, animations, and design systems in personal projects.
- Music — Avid listener; uses music as a creative companion during long coding sessions.
